

SANDY VALLEY SEMINARY

H. G. SOWARDS, Principal
PAINTSVILLE, KENTUCKY

TERM OPENS MONDAY, SEPTEMBER ELEVENTH 1918.

ADVANTAGES—Teachers of broad experience and adequate equipment. Christian environment. Active religious influences. A Christian character is built on the Rock of Eternal Truth and will stand unshaken amid the shock and storm of life's battle. This ought to be the first consideration in selecting a school. Here you have Christianity and religious influence in positive terms.

COURSES—Academic—Good high school or college preparatory offered. All the required subjects and a number of electives. Standard course admitting to any college.

Normal—Course offered meeting the State requirement. Teachers also have best opportunities in preparation for examination and what is better a thorough preparation for successful teaching.

Commercial—Strong course in bookkeeping, short hand, typewriting and correlative subjects. Our graduates equipped to fill the best positions. Unusual opportunities are now offered through the business course.

Music—Piano and Voice. This department has well merited the praise it receives. We have had far more than the average success and the course for this year is to be strengthened.

Expression—Kentucky is noted for oratory. It is a talent of marvelous power and when properly developed and cultivated makes one master of assemblies. We believe it is a grave mistake to neglect this talent and are offering a splendid course in physical culture and expression.

Grades—So many people living in the rural communities desire for their children better school advantages and at the same time home care. In our elementary department we offer this opportunity. Our teachers are graduates having had special training for the grade work, and in our dormitory the teachers will continue in charge. This gives you the advantage of the best schooling and also the same careful oversight of the home.

OUR DORMITORY—Girl students will be required to board in the dormitory where they will be under the immediate care of the teachers. This is not done to curtail liberties but to give to these young ladies that helpful sympathetic oversight that is so essential in the development of a wise and stable character.

INFORMATION—We invite your patronage and if you are thinking of sending your boy or girl away for the year's schooling, we urge you to investigate the opportunities offered by SANDY VALLEY SEMINARY. Write to H. G. Sowards, Principal, Paintsville, Ky., for any further information you may desire.

NOTICE OF ELECTION TO VOTE ON ROADS

WHEREAS, at a special term of the Lawrence Fiscal Court held for Lawrence Co., Kentucky, on the 10th day of June, 1918, and by a unanimous vote of the Justices, they all being present, it was the sense of them and this court to submit to the voters of Lawrence Co., at the August Primary, 1918, the question as follows, viz:

"Are you for a property tax of 20 cents on each one hundred dollars worth of property in the county, to be levied each year for 5 years, for the purpose of improving or constructing, either or both, the roads and bridges of the county?" No amount of money in the excess of the amount that can be raised by the levy in any one year shall be expended in that year.

The Sheriff of Lawrence county is directed to advertise the time and purpose of the election and the amount of tax to be levied in each year in the paper published in the county having the largest circulation for thirty days before the election as required by law.

BILLIE RIFFE, Judge L. C. C.
Attest:
D. B. ADAMS, Clerk.
By C. M. EDWARDS, D. C.

Pursuant to the above order of the Lawrence Fiscal Court notice is hereby given the legal voters of Lawrence county that an election will be held on the first Saturday in August, being August 3, 1918, for the purpose of taking a vote in each precinct in Lawrence county on the question: "Are you for a property tax of 20 cents on each one hundred dollars worth of property in the county to be levied each year for a period of five years for the purpose of improving or constructing roads and bridges in Lawrence county?"

Folio will be open from 8 a. m. to 5 p. m. 7-5-4t.

WM. TAYLOR, Sheriff L. C. C.

HAMILTON MAN SENTENCED.

Judge Howard C. Hollister in United States District Court sentenced William Bago, 45 years old, to 15 years imprisonment in the Atlanta, (Ga.) penitentiary.

Bago was convicted a week ago on a charge of violating the espionage act in making utterances against the Red Cross to discourage contributions to the society. He is said to have called its officers a bunch of grafters and declared the war was conducted in the interest of moneyed men.

Court, in passing the sentence, declared no class in the country were interested more in the success of the American arms than the working people, because if Germany succeeded they would become the principal sufferers.

The moneyed man has the means with which to live, but take away from the workingman what liberty has been built up for him against oppression and make of him cannon fodder he would suffer more than anyone else, said Judge Hollister.

Tribute was paid by court to the loyalty of labor during the crucial time of the nation. I glory in the fact labor has come to the front and supported loyally every effort of the government to meet this dreadful menace, Judge Hollister said.—Cincinnati Enquirer.

CANS FOR SALE.

We have some standard tin cans to close out for cash. Those who expect to need cans this year will do well to buy early, as the supply is limited and hard to get.

DIXON, MOORE & CO.
Louisville, Kentucky.

IT SHOULD MAKE A MILLION FOR HIM

Cincinnati man discovers drug that loosens corns so they lift out.

Good news spreads rapidly and drugists here are kept busy dispensing freezons, the recent discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

A quarter of an ounce costs very little at any store which handles drugs, but this is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn or toughened callos and instantly the soreness is relieved and the corn or callus is so shriveled up that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the surrounding skin.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

NOTICE.

Sealed bids will be received by the County Judge up to noon Monday, July 22nd, 1918, for the construction of a public highway over the lands of Mrs. Lizzie Moore on Cherokee Creek in Lawrence county, for a distance of 1450 feet on the location made by the Special Road Engineer and designated by a line of stakes, numbered from 0200 to 1450.

Plans and specifications may be seen at the office of the County Judge, or at the home of Mrs. Moore, or at the Bank of Blaine.

Prospective bidders will be required to go over the work and examine the plans and specifications, and bid in a lump sum for the entire work. The County Judge may reject any or all bids. The successful bidder will be required to give bond for the faithful performance of the contract. The road must be completed by September 20th, 1918.

H. B. HIGHERGER,
45144Jy19
Special Road Engineer.

The boys fight for liberty. Are you going to let your fields fight for the Kaiser? Sow wheat for liberty's sake and sow plenty of it.

Gunner Depew

A story in which the humanity, humor, pathos, horror, brutality and wretchedness of war are described in the simple, straightforward language of a sailor. DON'T MISS IT!

DEEDS OF BRAVE AMERICAN BOYS

With the American on the Marne, July 7.—Youthful American soldiers who volunteered for the task went with the French against the Germans in furious fighting yesterday afternoon for the possession of Hill 204, and covered themselves with glory.

When word came that the French would use detachments of Americans if they wished to go, these boys from the United States stepped forward to a man. More than five times the needed number offered themselves on the instant. It is the story of these lads that proves that the doom of the Kaiser lies in the hearts of American soldiers.

Never before having faced the Hun practically none of them ever having been under fire, they leaped at the chance to some to grips. It should inspire America to know that among those who stepped forward for the duty but noble task were youths only a few months drafted. Not that they stepped forth first—all stepped forward together—but these drafted boys showed nerve equal to that of the more seasoned soldiers.

It was a bloody and desperate fight for the hill commanding Chateau Thierry. It stands just outside the American sector, but all our soldiers knew its importance. Detachments of our soldiers were nearly waiting for their chance.

Call Comes for Volunteers.

Some of them were swimming in the silvery Marne where it wends its way through a marquetry of gold of ripening wheat, the red of glorious poppies and the green of growing oat fields. Others were catching base ball on the banks of the famous stream.

Except for the booming of distant cannon the war's nasty face seemed very far away, when just before noon the word spread that if the Americans wished they could get into the French line. A little later the call came and the companies were lined up and volunteers called for. One captain told me that when he asked for 20 men 150 offered themselves.

The attack started just after the noon hour and our boys were in its midst. For their first fight they got into the nastiest mix-up imaginable and met the meanest boche tricks. They found what it was to go against hidden machine guns, camouflaged rapid fire nests, gas shells and the deafening roar of a heavy barrage. They were shot at by snipers hiding in trees; they were shot at by big and little cannon with a roar that deafened them, but they did not falter. They went ahead with the French veterans of many a battle. They took machine gun posts, they took trench positions.

Fights With Arm in Sling.

There was the case of Lieutenant (deleted), which shows the spirit of our men. He was leading his men when a German bullet got him through the shoulder. He was taken back to a dressing station, after which, with his arm in a sling, he returned and led his men until the fight was ended. Our boys fought through woods that were almost impenetrable, where bayonets were sometimes used to cut paths and all in the face of German machine guns cleverly concealed.

LEMONS MAKE SKIN WHITE, SOFT, CLEAR

Make this beauty lotion for a few cents and see for yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore, irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quart of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any drugist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

SECRETARY BAKER GREATLY PLEASED WITH NITRO

Secretary of War Newton D. Baker inspected the big explosives plant at Nitro, near Charleston, W. Va., July 11 and addressed the workmen.

Promptly at 3:30 o'clock operations at the plant were brought to a standstill in honor of the distinguished visitor and 15,000 or more workmen, officials and clerks gathered in a large field where a temporary speaker's stand had been erected, gaily decorated with the national colors and flags of the allies.

The Secretary, in his address, warmly congratulated the workmen upon what he characterized as a truly wonderful accomplishment and in tendering them the thanks of the government, war department and himself, the Secretary of War expressed the fact that 20,000 men and women engaged in the plant were contributing as much to the success of the nation's arms as were the soldiers in France.

Speaking to the men who have been actively engaged in constructing the huge plant Secretary Baker declared that when this great war is finally won as it will be won by the United States; and when our troops in France administer the final blow and return home, they could remind them that when they pulled the trigger of their guns the bullets were driven at the Germans by the powder made at Nitro.

Of the building of the great plant Secretary Baker said: A very wonderful thing has been done. There are approximately 19,000 men employed on the job, 15,000 of whom eat on the grounds and have sleeping quarters there.

AMERICAN SOLDIERS ABROAD TO GET NEIGHBORHOOD NEWS.

New York, July 12.—Arrangements to distribute neighborhood news to all of the American fighting forces abroad has been perfected by the foreign press cable service bureau of the Committee on Public Information, which is directed by Walter S. Rogers. This new feature designed to give to American soldiers such news as they might expect to receive in letters from their relatives and friends if the mails could be depended upon, will be edited by Herman Suter, who has had broad experience as a newspaper publisher.

This service will be sent to France and wherever American soldiers are stationed every day by one of the big German wireless plants which has been operated by the government since the European war started and used extensively for American propaganda including the world broadcasting of President Wilson's speeches during the fifteen months this country has been at war with Germany and its allies.

The wireless reports will be delivered free of all tolls to military publications in France and where no news papers can be distributed bulletins will be supplied to headquarters of the different units for posting on conveniently located bulletin boards. The report will be copied also by the wireless plants of American warships wherever stationed.

Press to Co-operate.

Press Associations and newspapers generally have agreed to co-operate with the committee in making the service a success. The part played by the Associated Press, for instance, will be largely in the hands of the bureaus scattered strategically throughout the United States. Some one in each bureau called upon by the committee will send a brief telegraphic report to the committee in New York either daily or two or three times a week, according to the need, giving merely the high spots of the news local to the territory covered by such bureaus.

Each item will be just about what would appear in the headlines of local papers to describe important local events, such as nominations for political parties, deaths of prominent citizens of different states, fires, weddings of state wide interest and other news of less than international or national interest and therefore certain not to be cabled for publication in English, French or Italian newspapers.

In this way it is hoped to give the soldiers from every state at least two or three items of news from their home state or city each week. The budget will necessarily be limited, but the committee believes that the efforts to all those who patriotically contribute to the news service will be rewarded by the knowledge that they have reduced homesickness among the men who are offering their lives in the defense of the country.

BUSSEYVILLE.

Sunday school is progressing nicely with Mrs. Lena Pigg superintendent.

Misses Emma Meek and Pearl Brewster of Williamson, W. Va., spent the fourth with Miss Emma's parents, Mr. and Mrs. F. M. Meek.

Mrs. Hattie Bove and children left here Friday enroute to their home at Prestonsburg after a short visit to Mr. and Mrs. T. H. Bove.

Mrs. Brice McComas and little son Guy are spending a few days with her parents Mr. and Mrs. L. E. Pigg.

It was in the News a few weeks ago that Luther Terry hitched his horse at F. M. Meek's gate. It was a mistake but he does hitch his horse to a tree close by the yard.

Mr. Kirt Hall spent Sunday with his grand father, Mr. Elsie Hall.

Mrs. Willie Belle Carter, who same home a few weeks ago, very sick is nicely improving.

Last weeks news says Asa Meek who arrived safely in France several weeks ago, is getting along fine, liking the place splendidly.

Arnold Bove spent last week at Pt. Pleasant, W. Va.

Brella and Pansy Meek spent Saturday night with Estie Terry.

Mr. and Mrs. Allen Hayes passed thro' here Saturday enroute to Ashland. Dan Thompson spent the week-end with Millard Wellman.

Brice McComas was in the ville last week.

Mr. and Mrs. Burgess Compton spent Sunday afternoon with Mr. and Mrs. T. H. Bove.

Mr. Elbert Muncy left Saturday for Williamson, W. Va.

Mrs. Frank Meek and Mrs. Clyde Meek, of Williamson, W. Va. spent last week with relatives here.

Mr. Charley Shannon and brothers Bill and Tom motored through Busseyville Sunday.

Mr. Cullie Meek, who is in the U. S. army, and wife spent the fourth with his parents, Mr. and Mrs. F. M. Meek. We were all proud to see him back in Busseyville again.

Mr. and Mrs. Albert Shannon of Lick Creek motored through Busseyville Sunday enroute to Pleasant ridge to see their son in law, Arbie Hutchison, who is very sick.

Estie Terry spent Wednesday night with Brilla and Pansy Meek.

School will begin here the 29th., with Miss Marie Holt, teacher.

Rev. Lindsey Cyrus preached a very interesting sermon at the tabernacle Sunday P. M.

WHEAT WILL WIN THE WAR

LAWRENCE COUNTY'S APPORTIONMENT FOR NEXT YEAR IS 4,000 ACRES.

A noted English statesman said recently that if the people of America had failed to save this year that England and France would have been compelled to withdraw from the fight and as a result the Allies would have lost the war. This demonstrates the importance of wheat and teaches us that WHEAT WILL WIN THE WAR.

The Government of the United States realizes that the two most important factors in winning the war are men and food and so is drafting the best manhood of the country for the service in the trenches and is calling on the farmers to produce the maximum amount of food. There is no better way for farmers to answer the call for food than by sowing this Fall every acre to wheat that is possible and to sow it with such care that it will yield a bountiful harvest.

The patriotic farmer will give no thought to the price he will receive for his wheat but will think only of the starving poor of Europe and our boys in the trenches who are fighting our battles and who must be fed.

Money is Not Most Important.

Our boys are drafted into the army by the government and the wages they shall receive, which may be the wages of death, are fixed by the Government and the boys do not spend and time figuring whether they can afford to fight our battles for these wages. They know their country has called them and they answer the call without complaint or reservation. Your country is asking you to raise as much wheat as possible and you will not spend any time figuring whether you can afford to grow wheat at the price fixed by the government. You should realize only that your country has called you and you will do your best for WHEAT WILL WIN THE WAR.

No thought should be given to the possibility of being unable to harvest the wheat next year for the Government will permit no wheat to go to waste, but will find some means of providing laborers for the harvest.

England has sent more than six million men to fight her battles and in spite of this will harvest this Fall the largest wheat crop in her history. What England has done—America will do.

From now until wheat sowing time the patriotic farmer will salute his flag when he rises in the morning and will say and say it firmly I will this Fall sow all the wheat I can, for WHEAT WILL WIN THE WAR.

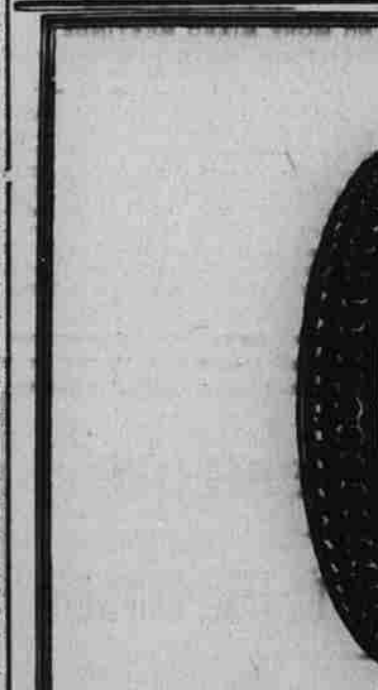

Lawrence County's Part.

The Agricultural Department has fixed a quota of 4,000 acres of wheat for Lawrence county to be sowed this fall. On the front gate of every man who agrees to sow wheat there will be placed a red, white and blue-card, a special mark of patriotism furnished by the government. Let every farmer who has any wheat land join in this movement.

FERTILIZER FOR SALE.

A car load of fertilizer just received. It will increase your crops enough to pay big returns on the cost of it. Louisa Furniture & Hardware Co.

Empty wheat bins and naked fields are the friends of the Hun. Full bins and waving fields of wheat are humanity's best friend. How is it on your farm?

FISK CORD TIRES

You want size—strength, safety, beauty and mileage in a tire. That's what you get in the Fisk Cord. All that, plus most unusual resiliency, speed, comfort and luxury—Made in Ribbed Tread and the famous Fisk Non-Skid.

HALF MILLION RED CROSS SEALS TO BE SUPPLIED.

In preparation for the Christmas drive 500,000 Red Cross Christmas Seals are now being printed, according to an announcement made by the National Tuberculosis Association from its headquarters in New York City Monday morning. This is by far the greatest number ever issued and the objective in view is at least to double last year's sale, which as shown by a tabulation now completed, totaled over 175,000,000, or 60 per cent more than in any year previous.

Owing to new problems directly or indirectly due to the war, the present announcement points out, the demands upon the national, state and local anti-tuberculosis associations have greatly increased, and additional funds sufficient to deal with these problems along curative and preventive lines must be secured. For such funds the associations are dependent chiefly upon the income derived from the sale of Red Cross Christmas Seals, under a cooperative arrangement by which the American Red Cross allows proceeds to be devoted to the furtherance of the campaign against tuberculosis throughout the United States.

The design of this year's seal, made by Charles A. Winter, a New York artist, is new and timely, linking the war with America is now waging with the war against tuberculosis. Liberty, personified as a goddess, is in arms, but in her right hand still holds aloft a blazing torch, standing alike for the undying spirit of freedom and for the healing of disease. A red cross carries its patent message of mercy, and holly leaves represent the spirit of Christmas. The colors are red, green and brown-black on a white field.
